OUR STORY

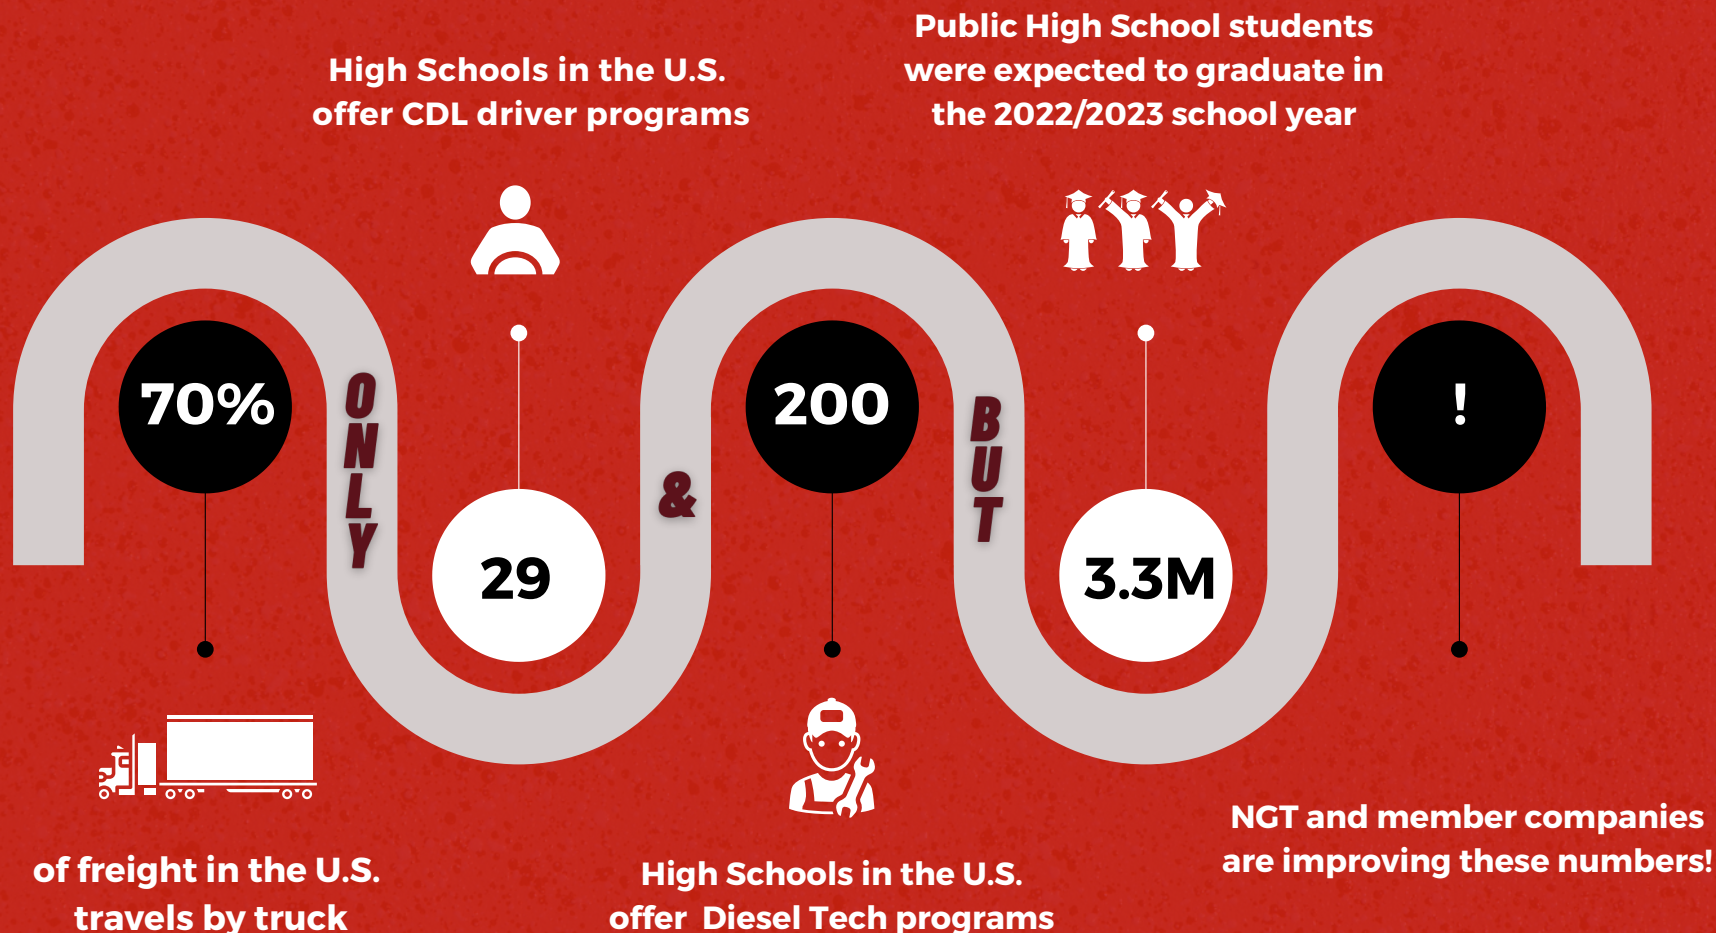

Now and in the future, **we need more truck drivers, diesel technicians and supply chain professionals** to keep our country moving! The growing trucking workforce **shortage is reaching crisis levels**. An aging skilled workforce is one of the main reasons. We must act now.

Next Gen Trucking Association (NGT) is a grassroots movement led by volunteer industry professionals and members including students, teachers, schools, trucking professionals, industry carriers, dealers and allied sponsors who all share the **common mission to promote trucking as a positive career choice**. One of our primary goals is to carve out career pathways for young people to get into the trucking industry. We need **members like you** to join forces with us so that we can create a diverse, talented, and skilled workforce for the trucking industry.

FOR MORE ON OUR STORY, WATCH THIS VIDEO.

DID YOU KNOW?

WHAT WE DO

CREATE

High School CDL driver, diesel tech and supply chain logistics programs throughout North America
